97.94" x 44.88" x 50.57"  
(248.7 x 114 x 128.4 cm)

## LEAVE CONVENTIONAL SHIPPING BEHIND

### INTRODUCING THE EX LINE TRADE SHOW CASE

Our new Pelican™ EX Line Trade Show Case is the ideal alternative to traditional crates. It's reusable, 20% lighter than wood crates for lower shipping rates, and can help eliminate assembly and damage associated with cardboard boxes and wood crates.

With optional internal shelving systems, you can create a more customized fit for anything from heavy duty materials to small sensitive equipment. The Pelican™ EX Line Trade Show Case: Built to last, designed to save.

## STACK UP ON SPACE

Built-in stacking ribs allow the case to be securely stacked horizontally. This results in maximized warehouse space, or "cubing out" a trailer to ensure economical transportation costs.

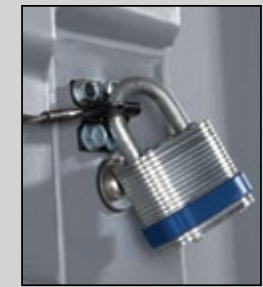

*All weather rugged design includes military grade hardware built to withstand repeated shipping*

## EQUIPPED FOR THE LONG HAUL

Catch and strike latches secure the door closed

Secure contents with locking hasps

Heavy-duty steel hinges built for the long haul

Gasketed door keeps water out, and equipment dry

Large label area identifies contents

Optional interior shelving systems

Door opens 270 degrees for easy loading and unloading

Four-way forklift skid runners accommodate both vertical and horizontal lifting

## PELICAN™ EX LINE TRADE SHOW CASE VS. WOOD CRATES

- 20% lighter than comparable wood crates—an economical choice for transport
- Roto-molded of high-impact polyethylene, this case is more durable and weather resistant than wood crates
- Significantly longer life than comparable wood crates
- Rugged design can withstand tough shipping environments and repairs easily (if needed)
- Molded-in ribs and corrugations for secure, non-slip stacking with columnar strength
- 15% to 20% thicker, naturally reinforced corners and edges for additional impact protection
- Lower environmental impact than single-use cardboard cases and short-life wood crates that end up in landfills

## RIGID EXTERIOR. ADJUSTABLE INTERIOR.

The new Pelican™ EX Line Trade Show Case is designed for optimal customization. Interiors have been designed to accommodate optional shelving, flooring, and ceiling set-ups to flexibly meet the needs of the trade show industry.

(Interior options not included)

- Optional shelving, flooring and ceiling choices allow for numerous configurations
- Hard interior mounting points for efficient and secure interior customization
- Silver State Case® offers complete design and fabrication services
- Pelican™ EX Line Trade Show Case is also available without interior configurations

All trademarks are registered and/or unregistered trademarks of Pelican Products, Inc., its subsidiaries and/or affiliates.
